

DAVID NAEK MARTUA SIAHAAN

(Class of 2019)

I am very grateful to be part of Rikkyo University. Rikkyo University offers beauty, hospitality, and convenience in one package. For example, Rikkyo University offers very interesting events especially for international students, such as field trips, sumo shows and so on, and it brings us the great opportunity to get acquainted with other international students.

The facilities are very good, modern and well-equipped, such as libraries, study rooms, health facilities, classrooms, gyms, canteens, and also a prayer room.

The staffs are so friendly and attentive for student's needs, and everything from registration to lectures is carried out very systematically and well organized.

Furthermore, the campus is located in the Ikebukuro area which is part of downtown Tokyo, so it's easy to access other public facilities in Tokyo.

As a student, I couldn't expect better than this. The experience that I got at Rikkyo University is the best experience I have ever had so far.
