## Comments from participants

The session has been very helpful and informative, thank you for inviting us.

The professor did a wonderful presentations with the colleagues at the University, very interactive and I am looking forward to the next interaction.

The briefing by the university and the sharing session provided an opportunity to gain insight on the environment and the course structure for better preparation. This session gave a chance for me to address my concern about the education approaches of the University. The sharing experience by the alumni reassured that Japan is the right choice for me to continue my study. I'm really excited to expand my knowledge and to experience the living life style in Japan. I would like to understand on how to survive in expensive city like Tokyo with student allowance, problems that require changing research topic for me to avoid and exciting extracurricular activities.

Very helpful session. I really appreciate the inclusion of current students sharing their experience at Rikkyo and the clarifications made to some of the questions asked by participants. This really cleared some doubts and gave me confidence.
